FISCAL ANALYSIS

Assumptions:

1. The Department of Environmental Quality (DEQ) will write agency specific rules that will precisely guide the continued licensure of solid waste management facilities that treat, store, dispose and or transport infectious wastes. The cost of such rule writing will be absorbed by the current solid waste program.
2. There is no indication of plans to license and construct any new solid waste management facilities for the commercial treatment, storage and/or disposal of infectious wastes in the state. Therefore, no additional expenditures or revenues are anticipated to the DEQ in the next four fiscal years.
